HARMED BY BOERS.

The British Troops in the Vicinity of Dundee are in Very Great Peril.

ATTACK BY ENEMY HAS COMMENCED.

The Boers Number 9,000 Strong, and Further News is Anxiously Awaited by the English People.

British Troops Defeat the Boers Near Graeco-Camp. The English Commander, Gen. French, Also Routed Them at Alandslange With Heavy Loss.

GRAECO-CAMP, Oct. 24.—After eight hours of continuous heavy fighting, Taans hill was carried by the Dublin Fusiliers and the King's Rifles under cover of a well served artillery fire by the 10th and 60th batteries. The Boers who threatened the British rear have retired.

The fight was almost an exact counterpart of that at Majuba Hill, except that the positions of the Boer and British forces were reversed. Gen. Symons was severely, but not dangerously wounded. He was shot through the thigh, but no bones were broken. He is cheerful.

Although the enemy's position was carried soon after 1 o'clock, scattered firing went on almost all afternoon. The first rain was made with a triumphant yell, and as the British troops charged to close quarters the enemy turned and fled, leaving all their impediments and baggage behind them in their precipitate flight.

LONDON, Oct. 24.—The war office Sunday afternoon published the following: "While commencing in Natal, the second day of the war was fought at Dundee, October 22, 1920, a. m. In the action at Alandslange yesterday the troops engaged were the following: Cavalry, 5th Lancers, a squadron of the 5th Dragoon Guards, the Imperial Light Horse and two squadrons of Natal carabineers; artillery, 21st field battery, 4th field battery and the Natal field battery; infantry, the Devonshire regiment, half a battalion of the Gordon Highlanders and the Manchester regiment. The whole force was under Gen. French, with Col. Hamilton commanding the infantry.

"At 8:30 p. m. our guns took a position on a ridge 1,400 yards from the Boer position and commenced firing. This fire was generally well directed, but somewhat high. This time, contrary to previous experience, their shells fell well.

The Boer guns, although often temporarily silenced, invariably opened fire again on the slightest opportunity, and were served with great accuracy. After about 10 o'clock the infantry carried the position. At 6:30 p. m. this was accomplished, the enemy standing his ground to the last with courage and tenacity. The 10th Lancers and a squadron of the 5th Dragoon Guards charged three times through the retreating Boers in the dark, doing considerable execution. We captured 100 rifles, 100 machine guns, 100 wagons, horses, and also two guns. The Boer losses were very considerable, including a number of wounded and unaccounted for. The Boers were retreating in a westerly direction. Our loss is regret to say, was heavy. It is roughly computed at 150 killed and wounded.

LONDON, Oct. 24.—Up to midnight the war office was besieged with inquiries, the heavy lists of British losses causing much heartburning.

Said a workingman, who was reading the list: "If it were not for the Lord's sake, I should say we are paying for it in full."

It is regarded as not impossible that Gen. White may yet be compelled to concentrate all the Natal forces at Ladysmith and await the arrival of the army corps.

LONDON, Oct. 24.—Great alarm is felt in London over the position of Gen. White and his troops near Graeco-Camp. It is known that his force is surrounded by a large army of Boers, whose fighting strength is estimated at 9,000.

There is no attempt in official circles to conceal the anxiety over the situation. Reference was made to it in parliament by several speakers, and the government is receiving telegrams from several news from the front.

CAPE TOWN, Oct. 24.—News has been received from Dundee to the effect that the Boer disaster at Alandslange staggered the Boers completely, rendering the attack upon Dundee feeble.

LONDON, Oct. 24.—The Daily Mail says it understands a message was received in London Monday from Gen. Rhodes dated at Kimberley October 18, declaring in substance that the inhabitants of Kimberley desired to draw the attention of the government to the need of speedy reinforcements, as the town was being surrounded by increasing numbers.

OTTAWA, Oct. 24.—The governor general, Lord Minto, has received a cablegram from South Africa Monday afternoon to the effect that President Kruger has decided to surrender.

BANDITS ESCAPE.

They Were Surrounded by an Armed Force of 200 Men—One of Their Victims' Body Recovered.

ATCHESON, Kan., Oct. 24.—Notwithstanding the fact that fully 500 armed men surrounded the island between Atchison and Doniphan all Sunday night, the two bandits who Saturday night killed one man and wounded another at Doniphan, and duplicating this crime near here Sunday while pursued by a posse, escaped before dawn. It seems that the robbers crept through the line of guards some time during the night, and stealing a team of horses made good their escape.

The body of Policeman Robert Dickerson, who was killed near the log barricade made by the robbers, has been recovered. At the barricade were found empty cartridge boxes and a vest, but nothing to lead to the identity of the men. A pool of blood showed that one of the robbers had been fatally wounded. Hundreds of men are searching for the bandits, who apparently are provided with plenty of ammunition.

NEED SURGEONS.

The Annual Report of Surg. Gen. Van Reypen, of the American Navy.

Of the 26 Casualties During the War With Spain, Only 11 Have Received Pensions—The Excellent Sanitary Conditions in the Navy.

WASHINGTON, Oct. 23.—The strongest recommendation in the annual report of Surg. Gen. Van Reypen, just made public, is that relating to the increase of the medical corps of the navy. He points out that while there has been a steady increase in the enlisted force of the navy for the past two years, and while the marine corps has been swelled by the addition of 3,000 men, there has been no suitable provision made for corresponding increase in the medical corps, which is charged with the care of the health of these men.

Every surgeon who is not sick is called to be on duty and the department has been unable to supply surgeons for extended furloughs and other duties. Therefore, the surgeon general says that the corps be increased five surgeons and twenty assistant surgeons and five volunteer surgeons who serve in the war and who are not in service, so that the regular corps will be able to handle the increased work.

It is also earnestly requested that the naval assistant surgeons be placed on an equality with those of the army in pay and rank. At present the army gets all of the medical service in the navy, while the navy can get scarcely any surgeons to serve. There are not four vacancies in the rank of assistant surgeons, and there will be eight more during the year, and the hope is expressed that the corps will be allowed to die out from lack of recruits, which must follow unless the increments are equal to those offered in the army, at least.

The surgeon general calls attention to the fact that the 81 casualties during the war with Spain, only 11 have put in pension applications so far, a most noteworthy fact in view of the report that 18 of the casualties resulted from the war.

In concluding the report special attention is invited to the excellent sanitary conditions existing in the navy, and especially in the Asiatic squadron during the past year. Early preparations were taken to prevent as far as possible the ill effects of the necessary climatic exposure and to give the best care and attention to the sick. The results have proven their value, and the sick list is small. The vessels in the Philippines indicate a high standard of physical efficiency in the squadron.

CHICAGO, Oct. 23.—A business block in South Chicago was burned early Sunday, entailing a loss of \$120,000 and painfully injuring 12 persons. Fourteen buildings were burned. The guests had barely time to leave the hotel, and the fire safety with little apparel. The persons who were injured received burns or sprains and bruises. The fire originated in the barn in the rear of Peter Hirsch's saloon and spread both east and west. The Grand Central hotel was one of the first buildings to go. Nearly all the property was insured.

Several firemen were injured, one probably fatally. Several guests of the hotel were burned.

THE HICKMAN COURIER.

George Warren.

HICKMAN, KY.
FRIDAY, OCT. 27, 1899.

Hon. John W. Yerkes the distinguished Republican leader and lawyer, addressed the people in City Hall, Wednesday night, on the political issues of the day. The hall was well filled, one side being reserved for and filled by colored folks. Judge Yerkes' speech was forceful, intellectual, scholarly and liberal, indulging in not the slightest personal abuse. To be sure it was strictly a party speech, and his legitimate assault upon the Democratic administration of State affairs could have been readily and effectively answered had a Democratic orator been present to reply. His speech was able and conservative and delivered with a calculating purpose not to offend dissatisfied Democrats inclined to vote for Taylor. The wonder is with Democrats why, if we shall have a Republican Governor, for the pride of the State did not nominate the able, elegant, educated Yerkes instead of a "human beelie" like Taylor.

MAJ. G. W. SAUNDERS has filed suit in the Circuit Court at Mayfield against Jack Lewis for \$1,000 damages for assault and battery. The trouble grew out of an attack made on the Maj. by Mr. Lewis about six weeks ago. The origin of the trouble was politics and Maj. Saunders, being in a rather feeble condition, was severely bruised.

THE Spanish-American war was a little one but it gave rise to several big jealousies. The greatest of all is that between Admirals Schley and Sampson, and now there is a new quarrel, with Admiral Sampson and Captain Chadwick of the cruiser New York, on the one side and General Shafter on the other. At a sword presentation to Captain Chadwick, at Morgantown, West Virginia, a few days ago, Admiral Sampson, in a public address, asserted that pending the battle of Santiago, General Shafter sent for him to urge that he make a naval attack and that he, instead of going, sent Captain Chadwick, who suggested to Shafter that he write a letter to General Tora, telling him that he was bound to be beaten and advising that he stop to hostilities. Shafter asked Chadwick to write the letter, which he did, and Shafter signed and forwarded it and it had the desired effect. All of which Shafter declares to be unqualifiedly false, although Chadwick confirms Sampson, and it is a very pretty quarrel as it stands.

—Better the towns and you better the country. Build a new court house at Hickman, the geographical center of the county, and the people will be benefited. The towns make the county, and public buildings, factories, mills and good roads make the towns. There should be no prejudice or fierce rivalry between towns of the same county, on the contrary harmony and good feeling should prevail.

—In times like these the man with the hoe hunts the man with the ax. When money is easy people spend it freely. They also seek those places that hold out the most conspicuous inducement. Of course some few of them will find your sign if you do not hang out your sign in the newspaper, but it will be like stumbling across an object in the dark. Many a buyer determines where he is going before he leaves home.

400 Mens and Boys custom-made Suits go at Cost at Buchanan's.

The keel of another Lee line steamer was laid at Howard's shipyard, Jeffersonville, Ind., last week, making two boats now on the ways for that company, and one in the water being finished. The keel laid last week was for the Rose Lee, the other boat on the ways is the Bayless Lee, and the one in the water is the Rees Lee, while the Peters Lee is at Memphis receiving her machinery and finishing touches.

—The rivermen of Memphis and other points down the Mississippi have made some sensible suggestions regarding the river lighting service. They propose to memorialize Congress to make a larger appropriation for beacons and lights along the river, also for having the light house service buoy the channels in the shoal places during the seasons of low water. For the purpose they recommend the use of small and inexpensive buoys for marking the channels. This, it is thought, will be of great benefit to navigation.

Now is your opportunity to buy a pair of celebrated Brown Shoes. All go at cost at Buchanan's.

On the 10th of December, 1897, Rev. Dr. H. C. Chandler, pastor of the Church of South, Pl. Pleasant, W. Va., contracted a severe cold which was attended from the beginning by a running cough. He says: "After resorting to a number of so called 'specifics,' usually kept in the house, to no purpose, I purchased a bottle of Chamberlain's Cough Remedy, which acted like a charm. I most cheerfully recommend it to the public." For sale by Cowgill & Cowgill, Hickman, Ky., and A. M. Shaw, State Line, Virginia.

WARREN—McAFEE.

Robt. S. Warren, of this city, and Miss Clara McAfee, of Moriah, were married last evening at five o'clock at the residence of Mr. T. R. Smoot, Rev. J. H. Roberts performing the ceremony.

"Bob" stole a march on his many Union City friends, also on the parents of his bride, Sunday he went to see Miss McAfee and about two o'clock in the evening they went for a drive. They drove straight to town and to the residence of Mr. Smoot, where Bob is boarding.

Soon thereafter, Rev. Roberts tied the silken knot which binds two loving souls together until death do them part.—Union City Courier.

Robbed the Slave.

A startling incident is narrated by John Oliver, of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and now have a good appetite. I know of no other should fail to try them. Only 60c, guaranteed. At all drug stores."
